FREE STEM PROFESSIONAL DEVELOPMENT FOR TEACHERS

UNIVERSITY OF MARYLAND
COLLEGE PARK, MD | JULY 10-14, 2023

OUR PROGRAM

ASM Materials Camp®-Teachers is a free, week-long, idea-generating workshop introducing teachers to methods that make math and core science principles more enticing and relevant to their middle and high school students. Materials topics are great motivators in any engineering, technology or science course as students learn concepts that are reflected in their everyday lives.

WHAT MAKES US DIFFERENT

Teachers leave our camps able to engage students using simple, low-cost experiments that integrate into existing lesson plans. Participants are eligible to receive four (4) Continuing Education Units (CEUs) and can opt for two (2) graduate level credits. NOTE ON CEUs for Maryland teachers: Further instructions will be provided to ensure receipt of credits!

SCAN ME! Watch a video about
ASM Materials Camp® Teachers!

"I couldn't help but say many times 'I can't believe this camp is free!' I knew that this camp had a sterling reputation based on blogs read from other teachers, but my expectations were exceeded between the physical materials used for labs, freebies, wealth of information, and lessons provided by master instructors. This was the best professional development camp I have ever attended."

—Amanda S.
